PROFESSIONAL SUMMARY

Aspiring Python Developer with strong foundations in Python, Django, SQL. Experienced in building full-stack web application including Food Delivery app with payment integration, CRM systems, e-commerce platforms, & database-driven solutions. Seeking an entry-level software engineer role to apply backend development & problem-solving skills in real-world applications.

TECHNICAL SKILLS

- **Relevant Core Subject** — Data Structure & Algorithm (Java), Object Oriented Programming (Java), Computer Networks, Database & Management System, Operating System.
- **Frontend:** HTML, CSS, Bootstrap 5, JavaScript.
- **Backend:** Flask, Django, REST API, Django ORM, Postman.
- **Databases:** MySQL, SQLite.
- **Tools:** Git, GitHub, Scikit-learn, Pandas, Render.

PROJECTS

- **Resume IQ — AI powered resume analyzer & job recommendation system**
 - Django | SQLite | Bootstrap 5 | HTML | CSS | Scikit-Learn | Pandas | PDF-Plumber | TF-IDF Vectorizer
 - Developed a Django-based AI resume analyzer to extract resume text, predict suitable job roles, and calculate confidence scores. Implemented resume scoring, skill-gap analysis, PDF processing, authentication, dashboards, and prediction history for an end-to-end resume analysis platform.
 - **GitHub:** <https://github.com/Soubhagya-Kabiraj/Resume-IQ>
- **Shop Ease — E-Commerce Web Application**
 - Django | SQLite | Bootstrap 5 | HTML | CSS | JavaScript
 - Developed a complete responsive e-commerce platform which manage 8+ module with user authentication, product management, category-wise filtering, shopping cart, Wishlist, and checkout system with Cash on Delivery integration. Implemented order management, product review & rating system, advanced search, profile management, and customized Django admin panel using Django ORM and MVT architecture.
 - **GitHub:** [https://github.com/Soubhagya-Kabiraj/ShopEase Ecommerce Website](https://github.com/Soubhagya-Kabiraj/ShopEase_Ecommerce_Website)
- **Market Wave — Retail CRM & Analytics Platform**
 - Python | Django | SQLite | Bootstrap 5 | HTML | CSS
 - Developed a centralized CRM system to manage 4+ module- products, customers, orders, and tags for a shopping mall through a single admin interface, CRUD operations with relational database modeling using Django ORM. Build analytics module with six interactive visualizations and order status tracking with MVT.
 - **GitHub:** [https://github.com/Soubhagya-Kabiraj/Market Wave Retail CRM](https://github.com/Soubhagya-Kabiraj/Market_Wave_Retail_CRM)
- **Train Ease — Railway Ticket Booking System**
 - Servlet | JSP | JDBC | MySQL | HTML | CSS | Bootstrap 5
 - Developed a full-stack online railway reservation web application following MVC architecture. Implemented Admin panel and User module differently. Using **Bootstrap** for clean UI. Implemented session handling for secure login. Designed a relational database schema.
 - **GitHub:** <https://github.com/Soubhagya-Kabiraj/Train-Ease>

EDUCATION

- **B. Tech in Information Technology (2023 - 2027)** — Asansol Engineering College | **CGPA:** 8.55

ACHIEVEMENTS & CERTIFICATIONS

- **Leet-Code** — Solved 70+ DSA Problems | **Contest Rating** — 1421 | **Profile:** <https://leetcode.com/u/rJ2AcTE5sQ/>
- **IEEE Student Membership** — Engaged in Technology & Engineering Management Society | [Certificate URL](#)
- **Guidewire DEVTrails University Hackathon 2026** — Participated in this national-level university hackathon organized in partnership with EY and the National Insurance Academy | [Certificate URL](#)
- **Certificate:** OOPS | **URL:** <https://www.udemy.com/certificate/UC-64d324e9-5cb4-4e1e-b59e-c488958ac0f1/>
