PROFESSIONAL SUMMARY

Final-year IT student with hands-on experience building AI-powered and full-stack web applications using Python, Django, and machine learning libraries including Scikit-learn and Pandas. Developed Resume IQ, an AI-based resume analyzer with job role prediction, alongside full-stack platforms like Shop Ease (e-commerce) and Market Wave (CRM & Analytics). Seeking a software engineering role to apply backend development, database design, and problem-solving skills to real-world products.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, Bootstrap 5, JavaScript.
- **Backend:** Flask, Django, REST API, Django ORM, Postman.
- **Databases:** MySQL, SQLite.
- **Tools & Technologies:** Git, GitHub, Scikit-learn, Pandas, Render, PDF-Plumber.

PROJECTS

- **Resume IQ — AI powered resume analyzer & job recommendation system**
 - Tech Stack: Django | SQLite | Bootstrap 5 | HTML | CSS | Scikit-Learn | Pandas | PDF-Plumber | TF-IDF
 - Developed a Django-based AI resume analyzer to extract resume text, predict suitable job roles, and calculate confidence scores. Implemented resume scoring, skill-gap analysis, PDF processing, authentication, dashboards, and prediction history for an end-to-end resume analysis platform.
 - GitHub: <https://github.com/Soubhagya-Kabiraj/Resume-IQ>
- **Shop Ease — E-Commerce Web Application**
 - Tech Stack: Django | SQLite | Bootstrap 5 | HTML | CSS | JavaScript | Strip Payment Gateway
 - Developed a complete responsive e-commerce platform which manage 8+ module with user authentication, product management, category-wise filtering, shopping cart, Wishlist, and checkout system with Cash on Delivery integration. Implemented order management, product review & rating system, advanced search, profile management, and customized Django admin panel using Django ORM and MVT architecture.
 - GitHub: https://github.com/Soubhagya-Kabiraj/ShopEase_Ecommerce_Website
- **Market Wave — Retail CRM & Analytics Platform**
 - Tech Stack: Python | Django | SQLite | Bootstrap 5 | HTML | CSS
 - Developed a centralized CRM system to manage 4+ module- products, customers, orders, and tags for a shopping mall through a single admin interface, CRUD operations with relational database modeling using Django ORM. Build analytics module with six interactive visualizations and order status tracking with MVT.
 - GitHub: https://github.com/Soubhagya-Kabiraj/Market_Wave_Retail_CRM
- **Train Ease — Railway Ticket Booking System**
 - Tech Stack: Servlet | JSP | JDBC | MySQL | HTML | CSS | Bootstrap 5
 - Developed a full-stack online railway reservation web application following MVC architecture. Implemented Admin panel and User module differently. Using **Bootstrap** for clean UI. Implemented session handling for secure login. Designed a relational database schema.
 - GitHub: <https://github.com/Soubhagya-Kabiraj/Train-Ease>

EDUCATION

- **B. Tech in Information Technology** — Asansol Engineering College | CGPA: 8.55 | (2023 – 2027)
 - **Relevant Core Subject** — Core Java, Data Structure & Algorithm (Java), Object Oriented Programming (Java), Computer Networks, Database & Management System.

OPENSOURCE CONTRIBUTION

- **QuantumGamePrison** — Successfully contributed [PR #3](#) improving inline documentation and docstrings for strategy methods and properties. Performed syntax validation & code-quality checks by **pytest** before submitting the contribution.

ACHIEVEMENTS & CERTIFICATIONS

- **Leet-Code** — Solved 70+ DSA Problems | **Contest Rating** — 1421 | **Profile:** <https://leetcode.com/u/rJ2AcTE5sQ/>
- **IEEE Research paper (in progress)** — 5G unlicensed spectrum simulation & access point modelling | [Certificate URL](#)
- **Guidewire DEVTrails Hackathon 2026** — Participated in this national-level university hackathon | [Certificate URL](#)
- **Certificate** — Completed **Gen AI Tools** developed by NASSCOM in collaboration with Govt. | [Certificate URL](#)
- **Certificate** — Completed OOPS course. | [Certificate URL](#)
